SOLID SOLUTIONS. BUILT TO LAST.

Formed from only the strongest most durable domestic hardwood species, Z-Wall combines the timeless look of natural wood with the form and function of a high-quality slatwall system.

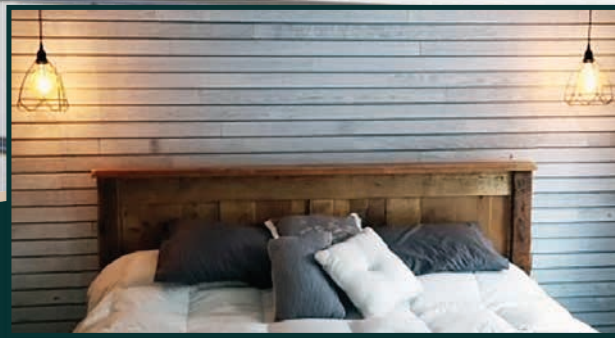

Manufactured by Boyce Highlands Inc. in our New Hampshire facility Z-Wall was designed and built on decades of experience in the hardwood moulding and millwork industry.

STRONG enough to support tools, shelves, commercial applications, and whatever else you can think to throw at it.

DURABLE enough for years of repeated use in a variety of applications.

BEAUTIFUL. Natural wood grain look and feel. Customizable finishes to compliment any space. Also available raw.

WORKABLE. Real wood means no specialized tools, fasteners, or expertise.

NATURES GRADE

- Natural Wood durability and Strength
- Simple Installation makes it a snap for seasoned professionals or DIY consumers to transform any space
- NO special cutting tools or complicated fasteners required
- Beautiful finishes available to accentuate the timeless wood grain look
